

# Commission free ETFs

DEGIRO

The ETFs below are part of DEGIRO's commission free ETF list and are offered without transaction costs based on a fair use policy. This means that you can do one transaction (a purchase or sale) per ISIN code, per calendar month, without transaction costs. Each subsequent transaction in the same ISIN code will also be executed without transaction costs, if:

- The transaction is in the same direction (buy/sell) as the first transaction that month;
- The transaction value is at least 1000 EUR, GBP or USD.

As soon as an opposite trade or trade below 1000 EUR (or GBP/USD) is executed in the same instrument within the same calendar month, the rule no longer applies to any subsequent transaction in that instrument, and regular fees will be charged. Please note, building a short position in ETFs from this list is not covered by the fair use policy. This means that you pay the standard fee of the exchange on which the ETF is listed.

Please note that some ETFs may be listed on multiple exchanges and that it is only the exchange listed below which is commission free. It is the client's responsibility to ensure that the ETF is listed on the correct exchange to benefit from the commission free trading.

If you have any questions, please contact our Service Desk.
